

PIGLET ADOPTION PROGRAM: A COMMUNITY-BASED INITIATIVE

INTRODUCTION:

Niugini Swine Farming Corporation is proud to introduce its Piglet Adoption Program, a unique and sustainable community-based initiative that offers individuals the opportunity to invest in and benefit from the growth of our farm while supporting local agriculture and economy. Through this program, participants can adopt a piglet for a nominal fee and watch their investment grow as the piglet matures and reproduces.

PROGRAM OVERVIEW:

The Piglet Adoption Program is designed to engage local and international communities in the journey of sustainable farming. By adopting a piglet for \$75, you become part of our mission to produce high-quality pork and support the growth of local communities in Papua New Guinea. The program focuses on ethical farming, transparency, and financial returns for participants.

- **Adoption Investment:** Individuals adopt a piglet for \$75.
- **Reproduction Cycle:** Each pig gives birth within 119 days, producing at least 10 piglets per cycle.
- **Return on Investment:** Adopters receive 4 piglets (valued at \$50 each), earning \$200, yielding a 166.67% return in just 4 months.
- **Sustainable Growth:** The remaining 6 piglets are retained by the company to ensure long-term farm expansion and profitability.
- $ROI = \frac{\text{Total Earnings} - \text{Initial Purchase Price}}{\text{Initial Purchase Price}} \times 100$

KEY BENEFITS OF THE ADOPTION PROGRAM

1. **High Returns on Investment** – Adopters enjoy a 166.67% ROI in just four months.
2. **Sustainable Business Model** – The company reinvests part of the piglets into expanding farm operations.
3. **Community Empowerment** – The program creates employment and economic growth for local communities.
4. **Food Security & Industry Growth** – Strengthens PNG's pork supply chain and supports the development of a modern pig processing facility.
5. **Zero Management Hassle** – Niugini Swine Farming Corporation manages piglet breeding, feeding, and healthcare, ensuring optimal growth and safety.

FINANCIAL GROWTH PROJECTIONS

By participating in the Adoption Program, adopters contribute directly to:

- Scaling pig production to 100,000 pigs to meet local and international demand.
- The establishment of a high-tech pig processing facility for global meat exports.
- Strengthening the company's position in the international pork market.

TERMS & CONDITIONS

- The \$75 adoption fee is non-refundable and contributes directly to farm growth.
- Adopters receive their returns in the form of cash value after the reproduction of your piglet.
- Niugini Swine Farming Corporation ensures proper piglet care, feeding, and breeding management to maximize returns.

WHY PARTICIPATE IN THE PIGLET ADOPTION PROGRAM?

- **Support Local Communities:** Your participation helps support sustainable agricultural practices, benefitting local farmers and the broader community in Papua New Guinea.
- **Generate Returns:** The \$75 investment allows you to earn financial returns through the reproduction of your piglet and its offspring, creating an ongoing revenue stream.
- **Contribute to Sustainability:** By adopting a piglet, you actively contribute to the sustainable production of pork and support responsible farming practices.
- **Quality Assurance:** All piglets are raised under ethical, sustainable conditions, ensuring the highest standards of care and the production of premium pork products.

JOIN US IN CREATING A SUSTAINABLE FUTURE

The Piglet Adoption Program is a great way to get involved in a community-driven initiative that fosters economic growth, supports sustainable farming, and provides valuable returns for all participants. By adopting a piglet, you are helping Niugini Swine Farming Corporation achieve its mission of becoming a global supplier of premium pork products while ensuring the well-being of our animals and the local community.
